**EDUCATIVE SUMMER CAMP IN AEROSPACE & ENGINEERING**

Date : 29.04.2019 to 09.05.2019  
Timings : 7.00 am to 9.00 am  
Class : STD VI to IX  
Cost : Rs. 2000/-

Dear Parents,

Sweet greetings with a very happy news for your child. We have teamed up with “Raven Aerial Technologies”, India’s fastest growing aerospace educational company, to provide excellent high quality technical education in aerospace modeling and engineering. Two hours classes will be held per day to make your child really knowledgeable in the scientific and engineering principles of aeronautics and avionics. Your child will also undergo rigorous practical training to be inculcated with more refined engineering and designing skills. The instructors and trainers include well experienced, qualified and talented staff members of Raven Aerial Technologies. We have decided to set a reasonable amount of Rs.2000 for this summer camp to provide your child a very high quality technical education. Aeronautical engineering is a very promising field and India needs brilliant human resources to soar high where no has ever gone before. We want your child to be a great achiever and be the one among the few to take our dear motherland to greater heights. Get your child ready to fly up in the sky.
